### **ABSTRACT**

Pain is a sensory, psychological, subjective feeling with or without tissue damage. Homoeopathy aims 'cure' means disappearance of pain with treatment of underlined cause by considering 'person as a whole' because just providing relief by any means of suppression is not 'cure' .

Homoeopathic medication for pain is based on :

- 1) Proper observation.
- 2) Totality of symptoms.
- 3) Pharmacological reasearches.
- 4) Reports got in drug proving and clinical experiences.
- 5) Individualisation.
- 6) Miasmatic background.
